

Eldeli Toplama İşlemi Yapalım

AKLIMDA!

İki basamaklı sayılarla toplama işlemi yapılırken önce birler basamağındaki sayılar toplanır. Bulunan sonuç 10 veya 10'dan büyükse elde edilen sayının birliği olduğu gibi yazılır. Onluğu ise 1 onluk olarak onlar basamağına eklenir.

Etkinlik: Aşağıda verilen eldeli toplama işlemlerini yapalım.
